2023 OCTOBER RECORDS REPORT

Good day everyone,

This half of the year has seen a relatively moderate pace in the registration of new records for this record period, with a total of only 3 new records being recorded. However, as we look ahead to the next fishing period, we anticipate a significant improvement in the quality and quantity of catches.

Starting with Jethro Doman, these remarkable catches of the Catface Rockcod and White-Edged Rockcod, weighing 7.16KG and 11.28KG respectively, were caught last year, and have reached their well-deserved recognition as All Tackle World Records. These extraordinary achievements, accomplished in Durban using 37KG Braid, have earned Jethro the prestigious SADSAA and All Africa ALL Tackle records. Well done, Jethro!

Julia Twine has accomplished an incredible feat! On 1 April 2023, she reeled in her second record catch a magnificent Red Steenbras weighing a whopping 7.38kg in Struisbaai. Using a 6kg line, she showcased her exceptional skills and landed herself the prestigious All Africa and SADSAA F-Smallfry Line Record. What an impressive achievement, Julia! We applaud your remarkable catch, and we eagerly await your future records.

Well done to all the anglers!
